

Courtenay and District Fish & Game Protective Association Annual Spring Cleanup Saturday, 13 April 2019

**Meet for coffee and muffins at main hall at 8:30 am.
Return to hall for light lunch at 12:30.**

Depending upon number of volunteers who attend and the weather, the following will be done:

1. Clean roadsides from Lake Trail to club property
2. Rake and clean campground sites
3. Wash windows inside and out of main hall
4. Weed in the gardens
5. Clean up around the property
6. Powerwash cement walkways
7. Clean cobwebs from door entrances

Bring gloves, rakes, shovels, pickers, and warm clothes. Garbage bags will be provided.

There are lots of different jobs, inside and out ... light duty and heavy duty. Something for everyone to help with!

This cleanup started a number of years ago to give our support to Earth Day cleanup events. It also helps to spruce up our property before visitors attend our summer community events.
